Abstract (11Bold): *The abstract should summarize the content of the paper. Try to keep the abstract below 200 words. Do not make references nor display equations in the abstract. The journal will be printed from the same-sized copy prepared by you. Your manuscript should be printed on A4 paper (21.0 cm x 29.7 cm). It is imperative that the margins and style described below be adhered to carefully. This will enable us to keep uniformity in the final printed copies of the Journal. Keywords (11Bold) *- About five key words in alphabetical order, separated by comma (10 Italic)*

I. INTRODUCTION (11 Bold)

The introduction of the paper should explain the nature of the problem, previous work, purpose, and the contribution of the paper. The contents of each section may be provided to understand easily about the paper. (10)

Headings and Subheadings: The headings and subheadings, starting with "**I. Introduction**", appear in upper and lower case letters and should be set in bold and aligned flush left. All headings from the Introduction to Acknowledgements are numbered sequentially using 1, 2, 3, etc. Subheadings are numbered 1.1, 1.2, etc. If a subsection must be further divided, the numbers 1.1.1, 1.1.2, etc.

Text Font of Entire Document: The entire document should be in Times New Roman or Times font. Other font types may be used if needed for special purposes. The font size for **heading is 11 points bold face** and **subsections with 10 points and not bold.** Do not underline any of the headings, or add dashes, colons, etc. (10)

Page Numbers, Headers and Footers: Page numbers, headers and footers must not be used. (10)

Indentations and Equations: The first paragraph under each heading or subheading should be flush left, and subsequent paragraphs should have a five-space indentation. A colon is inserted before an equation is presented, but there is no punctuation following the equation. All equations are numbered and referred to in the text solely by a number enclosed in a round bracket (i.e., (3) reads as "equation 3"). Ensure that any miscellaneous numbering system is used in the paper cannot be confused with a reference [4] or an equation (3) designation. (10)

II. METHODS AND MATERIAL (11 Bold)

An easy way to comply with the paper formatting requirements is to use this document as a template and simply type the text into it. (10)

III. DISCUSSION AND CONCLUSION (11 Bold)

A discussion as well as conclusion section must be included, and should indicate clearly the advantages, limitations, and possible applications of the paper. Although a discussion and conclusion may review the main points of the paper, do not replicate the abstract as the conclusion. A conclusion might elaborate on the importance of the work or suggest applications and extensions. Authors are strongly encouraged not to call out multiple figures or tables in the conclusion—these should be referenced in the body of the paper. (10)

Acknowledgements (11 Bold)

An acknowledgement section may be presented after the conclusion, if desired. (8)

IV. REFERENCES (11 Bold)

The heading of the References section must not be numbered. All reference items must be in 8 pt font. Please use Regular and Italic styles to distinguish different fields as shown in the References section.
